LEGEND

AIRPORTS

Airports having control towers are shown in **blue**; all others in **magenta**. Consult Chart Supplement for details involving airport lighting, navigation aids, and services. All lakes and rivers are for pictorial reference only and may not be current.

- Visual Approach Only
- Nonpublic Use
- Hard-surface runway
- Hard-surface runways 1500 ft. to 8069 ft. in length
- Hard-surface runways greater than 8069 ft. or some multiple runways less than 8069 ft.
- Some but not all runways hard surfaced
- Soft surface runway
- Sod, Dirt, Gravel or Water Runway
- All runways are hard surface unless otherwise indicated, and shown to scale where dimensions, runways may be visible or private.

ADDITIONAL AIRPORT INFORMATION

- Private (PVT) - Ownership and operation restrictions may exist
- Military - Other than hard-surface, all military airports are considered to have hard-surface runways
- Rotating beacon
- Segmented Circle
- Lighted Heliport
- Lighted Airport
- Numbers in parentheses indicate number of runways if more than one. Runway information may be omitted from small airports where space is limited.

OBJECTIONABLE - Airport may adversely affect airspace use.

AIRPORT TRAFFIC SERVICE AND AIRSPACE INFORMATION

Only the controlled and nonzero airspace is shown. See Chart Supplement for complete airspace information.

- Class B Airspace
- Class C Airspace (Mode C Veil)
- Class D Airspace
- Ceiling of Class D Airspace in hundreds of feet MSL. Class D airspace without a ceiling is charted to 2,500 feet AGL.
- Class E Airspace (Class E surface airspace is not charted unless designated an airport above)
- Class E Airspace (Class E surface airspace is not charted unless designated an airport above)
- Class E Airspace (Class E surface airspace is not charted unless designated an airport above)
- Special Use Airspace (SUA) - Prohibited, Restricted, Warning, Alert, Military Operations Area (MOA), Controlled Firing Area (CFA), National Security Area (NSA). Activity, hours of operation, altitudes and controlling agency are charted.
- Special Airport Traffic Area (SATA) - Not Class D Airspace
- Class Boundaries
- MODE C VEIL
- Mode C Veil (10 nm/30nm) - Pilots flying aircraft equipped with 4096 mode C transponder (or better) are required to operate with transponder on when flying within or above the Mode C Veil.
- Terminal Radar Service Area (TRSA) - Class E airspace
- Military Training Route

OBSTRUCTIONS

1000 ft and higher AGL; Mountain Pass; Antenna Tower; Wind Turbine; Wind Turbine Farm; Group Obstruction; Obstruction Under Construction; Obstruction Lighted; Obstruction Unlighted; Obstruction Marked; Obstruction Unmarked
