CHARTING NOTICE

Date: October 23, 2012
To: Users of the digital Terminal Procedures Publication (d-TPP) DVD
From: Aeronautical Navigation Products (AeroNav Products)
Subject: Possible change from a single layer DVD to dual layer DVD

The digital Terminal Procedures Publication (d-TPP) single layer DVD is near capacity.

We may be transitioning to a dual layer DVD sometime in the future when we can no longer fit the d-TPP onto a single layer DVD. **Unfortunately, we are unable to predict exactly when this transition will occur**, it could happen in one cycle or in many cycles depending on how many new pages are added, and the file size of the new pages.

Some older computer drives may have difficulties reading a dual layer DVD. Existing FAA d-TPP customers may also download the DVD electronic product from the web.
