The digital-Terminal Procedures Publication (d-TPP)/Airport Diagrams website and the digital-Terminal Procedures Publication DVD files effective for the January 10, 2013 cycle charts will be published using an upgraded version of MicroStation software used for FAA Terminal Procedure Chart creation and maintenance. The charts should have no visual differences, but it is possible that minor digital changes may be detected. We have posted 52 PDF Microstation V8i files for our users to examine and prepare for the change prior to the publication of the January 10, 2013 effective date.

If you have any questions or concerns, contact the Aeronautical Navigation Products at 1-800-627-3677 or via e-mail at: 9-AMC-Aerochart@faa.gov
