KETCHIKAN
LEGEND

Airports having Control Towers are shown in Blue, all others in Magenta. Consult Supplement Alaska for details involving airport lighting, navigation aids, and services. All lines are local. For additional symbol information refer to the Chart User's Guide.

AIRPORTS

Hard-surface runway
Unverified / Hard-surface runway
Seaplane Base
Hard-surface runways 1500 ft. to 8069 ft. in length
Hard-surface runways greater than 8069 ft. or identified by airport name or number
Open dot within hard-surface runway configuration indicates approximate VOR, TACAN, or VORTAC location
All unmarked hard-surface runways, including those closed, are 1500 ft. or greater in length. Runway lengths rounded to nearest 100 ft.

ADDITIONAL AIRPORT INFORMATION

Private - PVT - Non-public use having emergency or landmark value
Military - Other than hard-surface runways, all airports with identified military services/activities, except heliports
Abandoned
Heliport - Hard-surface runway having landmark value, 3000 ft. or greater
Airport Traffic Service and Airport Information

Runways, hard-surface and field landed during normal working hours depicted for use of those aircraft listed in each airport's Airport Facility Directory. Consult Airport/Facility Directory and Supplement Alaska for service availability at airports with back course localizer procedures.

Rotating airport beacon in operation Sunset to Sunrise

OBJECTIONABLE - Airport may adversely affect airspace use.

AIRPORT TRAFFIC SERVICE AND AIRPORT/FACILITY DIRECTORY

Pilot-to-Metering Service
Flag for Airport/Facility Directory
effective below 10,000 ft. MSL are shown on charts.

Class B Airspace
Class C Airspace
Class D Airspace
Ceiling of Class D Airspace in hundreds of feet (a ceiling value not enclosed by airspace is the floor of overlying Class E airspace)
Class E Airspace with floor 700 feet above the surface
Class E Airspace with floor 1200 feet above the surface
Class E Airspace with floor 1500 feet above the surface
Class E Airspace with floor 2000 feet above the surface
Differentiates floors of Class E Airspace (surface areas) 2400 MSL / 4000 MSL
Class E Airspace at 1200 ft. AGL unless otherwise designated
Class E Airspace at 14,500 ft. MSL over the United States is designated airspace unless otherwise designated
Airspace is controlled from the surface upwards
Airspace is controlled upwards from the floor of the overlying airspace
Total mileage between NAVAIDs on direct airways (Victor and Jet routes). Where there is a change in the mileage value between NAVAIDs on a direct airway, the mileage value is positioned by radials from the NAVAID.
Prohibited, Restricted, Warning, Alert, Military Operations Area, Danger, Caution Areas, Controlled Firing Areas and MOA
Special Use Airspace - Special Airport Traffic Area (SATA) - Special Flight Rules Area (SFRA)
ADIZ - Air Defense Identification Zone
ADIZ (CANADA) / ADIZ (CANADA) - National Security Area
Temporary Flight Restrictions
MTR - Military Training Routes
