Memorandum

Date: FEB 18 2014

To: File

From:  George Gonzalez, Manager, Instrument Flight Procedures Team 2, AJV-353

Subject: **ACTION:** Documentation of a Categorical Exclusion Under Order 1050.1

- A. Proposed Action: Establish a special departure procedure at Mercy Medical Center (KIA50), New Hampton, IA.
- B. This action qualifies for consideration as a categorically excluded action as it falls under the following specific categorical exclusion provision: Publishing of Instrument Procedures conducted over noise sensitive areas; modifications to currently approved instrument procedures conducted below 3,000 feet AGL that do not increase minimum altitudes.
- C. Other supporting information:
 - ASO-220 Memorandum dated April 5, 1989
 - AFS-1 Memorandum dated September 21, 1994
 - AVN-100 Memorandum dated July 23, 1996
- D. Review and analysis by the FAA does not indicate that any extraordinary circumstances listed in Order 1050.1 or other reasons exist that would cause the undersigned to believe that the proposed action might have the potential for causing significant environmental impacts upon its implementation. The proposed action does not individually or cumulatively have a significant effect on the human environment and, therefore, is determined to be categorically excluded from further environmental documentation according to Order 1050.1.
