Request ID: KMEM_191023

Single or Multiple Procedure: Multiple

Procedure Name(s): All MEM SIDS : see attachment.

Procedure Request Description:

Procedure to be amended: All MEM SIDS - Note change only.

Preferred Routing Description: In the NOTES: amend the wording to read, "Accelerate to 250 KIAS, reaching 10,000 MSL, maintain 250 KIAS or greater, if unable advise ATC."

Request Justification: Currently, the NOTE states "Accelerate to 250K, if unable advise ATC." Aircraft are checking in and sometimes several sectors down stream pilots are still maintaining the 250K even though its not necessary anymore.

Declaration of Exclusion:

The FAA has reviewed the above referenced proposed action and it has been determined, by the undersigned, to be categorically excluded from further environmental documentation according to FAA Order 1050.1, "Environmental Impacts: Policies and Procedures." The implementation of this action will not result in any extraordinary circumstances in accordance with FAA Order 1050.1.

Basis for this Determination:

This review was conducted in accordance with policies and procedures in Department of Transportation Order 5610.1, "Procedures for Considering Environmental Impacts" and FAA Order 1050.1.

The applicable Categorical Exclusion is:

5-6.5.k: Publication of existing air traffic control procedures that do not essentially change existing tracks, create new tracks, change altitude, or change concentration of aircraft on these tracks. (ATO, AVS)

The above flight procedure has been developed within the accepted parameters.
