Helicopter Route Charts

- Three-color charts that depict current aeronautical information useful to helicopter pilots navigating in major metropolitan areas with high concentrations of helicopter traffic.
- Information includes helicopter routes, four classes of heliports with associated frequency and lighting capabilities, radio aids to navigation, and obstructions.
- Pictorial symbols, roads and easily identified geographical features are portrayed.
- Areas charted: Baltimore-Washington, Boston, Chicago, Dallas-Ft. Worth, Detroit, Houston, Los Angeles, New York
- Scale: 1:125,000
- Updated: Per need, as determined by the FAA
- Available in digital format
