VFR Terminal Aeronautical Charts (TACs)

- ✈ Provides large scale portrayals of select metropolitan areas.
- ✈ Intended for use by pilots operating in areas within or near a Class B or Class C airspace.
- ✈ Portrays more aeronautical and topographic detail than the Sectional and World Aeronautical Charts, satisfying pilotage and local control requirements.
- ✈ Coverage of VFR Terminal Area Charts are indicated by shaded boxes on the Sectional Aeronautical Chart index.
- ✈ Scale: 1: 250,000
- ✈ Updated: Every six months
- ✈ Available in digital format
