

COLD TEMPERATURE AIRPORTS
11 Aug 2023 – 5 Sep 2024

Airports are listed with ICAO code, Airport Name, Temperature in Celsius and Affected Segment/s. The temperature is indicated on Airport IAPs next to a snowflake symbol ❄️ in the United States Terminal Procedures Publication (TPP). The segments are listed for operators using Individual Segment(s) Method.

See, Aeronautical Information Manual (AIM), Paragraph 7-3-4, Cold Temperature Airports, for information and procedures.

Additional Information: The following military airfields meet the criteria to be identified as a Cold Temperature Airport using the FAA cold temperature model. USAF, USA, USM, USN and USCG are not required to adhere to the procedures found in the AIM at these airfields. This information is applicable to FAA authorized operators operating into these airfields.
