SAN ANTONIO

CAUTION: This chart is normally developed for VFR (visual)flight purposes and does not contain all obstructions above 1000' AGL. Operators are responsible for obstructions above their intended altitude/route and must see and avoid obstacles.

Lowest Obstruction Elevation Shown: 1178' MSL in 1° 00' W
Highest Obstruction Elevation: 3660' MSL in 29° 30' - 100° 30' W
Highest Terrain Elevation: 3660' MSL in 29° 30' - 100° 30' W
Aeronautical data effective 0901Z 25 FEB 2021

OBSTACLE DATA
Obstacle data based on the National Geodetic Survey (NGS) publication, Digital Obstacle File (DOF) and other sources. Consult publication for complete explanation of obstacle data.

Obstacle Data Shown in Feet MSL (Unless Otherwise Noted)

OBSTACLE	ELEVATION	LIGHTING
ANTENNA	1000	NONE
ANTENNA	1000	MEDIUM INTENSITY WHIT
